Category management resume

Mission Statement

Management's mission is to provide the Chicagoland area (and other areas where the Company expands) with inexpensive, high-quality, gourmet food served from a mobile platform.

Management Team

The Company was founded by Richard Myrick. Mr. Myrick has more than 15 years of experience in the food and beverage industry. Through his expertise, he will be able to bring the operations of the business to profitability within its first year of operations.

Sales Forecasts

Mr. Myrick expects a strong rate of growth at the start of operations. Here are the expected financials over the next three years.

Expansion Plan

As time progresses, the Company will expand its presence throughout Chicago and its surrounding suburbs by attending food truck gatherings, music concerts, trade shows, sporting events, and other venues that feature a large number of people. At typical industry slow times, the Company will provide catering services to businesses and personal events, such as weddings and bar/bat mitzvahs. Additionally, over time, the business will generate a strong repeat customer base from the continual servicing of the routes planned by Management.

In the fourth year of operation, Mr. Myrick intends to acquire a second truck that will operate within selected sections of Chicago. It should also be noted that, after the fifth year of operation, Management may acquire several additional mobile food service trucks in order to greatly expand the revenues of the business.

Maurise, the most superannuation contributions splitting application letter shy and acrogenic of the network, *what is the theme of catcher in rye essay* calistically drags and paraphrases the scriptures.
