Portfolio and Project Management

Problem:

Changing budgets and priorities can add cost and risk to many federal projects. Understanding the impact of change(s) across a portfolio of projects before reallocation of resources is critical to reducing the impact and risk.

Solution:

Evolver utilizes best-in-class analytic capabilities to optimally plan all your portfolio and project planning needs. We specialize in tools that integrate real-life variability into predictive analysis and facilitate rapid what-if scenarios allowing managers to quickly understand short and long-term affects of go, no-go decisions.

Outcomes:

- Optimally planned projects and tasks.
- Accurate forecasting of pending change impacts.
- Real-time visibility into project/task dependencies.
- Better data. Better decisions. Lower risk.

Now That's Progress. That's Evolver.
